

Dev Ops:

Thanks to our incredible growth we are looking for several DevOps engineers to join our company, based in Navan.

About Us: Prepaid Financial Services (PFS) is currently one of the fastest growing technology companies and e-money payments institutions in Europe. We have built our success by operating as a payments technology specialist that offers some of the most flexible and quick to market services in the payments industry - and as a result our partners include national governments, mobile network operators, banks and global blue-chip organisations.

Our award-winning service line includes own label and white label e-money financial solutions, including e-wallets, prepaid cards, and current accounts.

PFS provides complete end to end solutions for clients by designing, developing, implementing, and managing these programmes.

About You: You're a team player, you want to be part of a technology driven team. You're used to showing technical leadership in a collaborative environment. You like to experiment with and implement new tools and technologies.

The Role:

- Manage and monitor the operation of a brand-new cutting-edge Integration with a major payments infrastructure
- Manage accurate operations of key infrastructure and help to drive improvements to ensure scalability and high availability
- Collaborate with multiple teams to design and implement new features
- Network maintenance and troubleshooting issues
- Assist others in the maintenance of systems
- Research new tools and technologies and assist with the automation of deployments and monitoring tools

Qualifications / Experience:

- A minimum of 4 years' experience in a similar role
- Strong experience in Windows and Linux server administration skills
- Experience in at least one modern software language (Java, C# etc)
- Strong SQL Server/MySQL/MongoDB skills
- Excellent networking skills (firewalls, routing and switching)

Experience working against PCI-DSS requirement would be beneficial. Any payments experience would be beneficial.

The Package

- **Competitive Salary**
- **Benefits**
- **Career development & progression**
